

Accessing the CDRC Resources - SystemOne

- How do I access the CDRC resources?
 - Please email the name of your organisation to necsu.cdrc@nhs.net and indicate that you would like access to the CDRC resources on S1.
 - **A task will be sent to your 'Unassigned Tasks' box for you to action in order to join the 'DCS' group.**
- If I join the DCS group, will I share any of my organisation's data out to anyone else?
 - **No.** Joining the group does not permit any access to any of your organisation's data (patient or otherwise) to other organisations.
- Can I choose which DCS resources I'd like to be active / inactive?
 - **Yes.** All the elements of the DCS group are optional.
 - **NB By default: Patient Status Alerts and a proportion of Protocols are set to be auto-activated when you join the DCS group. These can be turned off if required:**
 - **To turn off Patient Status Alerts** (these are the small icons which appear under the patient demographics):
 - Navigate to the PSA management area and untick the 'enabled' box for the PSAs that you do not want to use:

The screenshot shows the 'Available Alerts' table with columns: Name, Icon, Category, Availability, Enabled, and M... The 'Enabled' column contains checkboxes, some of which are checked and some are unchecked. The 'Patient Status Alerts' menu path is highlighted in the top navigation bar.
